

AQUALIFE

WOUND SOLUTION

ADVANCED CARE

WOUNDS , SKIN , BURNS

WHAT IS AQUALIFE

Aqualife: pH Neutra Superoxidase Solution of Hypochlorous Acid Formulation Approved by JFDA Organisation for use in Humans for the Treatment of all Types Infected, Non-Healing Acute & Chronic Wound.

Aqualife is the only wound care solution which is SAFE and EFFECTIVE on all stages of wound healing

Neutral pH of Aqualife makes its safe and gentle for granulation tissue, preserving the health of healing granulating cells while fighting infection.

Hypochlorous Acid is One of the Major Microbicidal Compound of Innate Immunity, Produced by Neutrophils (WBC's) During Immune Reaction (Phagocytosis) to Destroy Pathogens with No Evidence of Microbe Resistance, Making it an Ideal Wound Care Agent with Powerful Microbicidal, Antibiofilm and Wound

Aqualife is our revolutionary wound care product that has been formulated with the purest form of HOCl in order to ensure that every patient receives the best possible wound care solution.

Aqualife is intended for cleansing, irrigating, debriding, and removing foreign material including microorganisms

- Mimics the normal pH of human skin
- Reduces wound odor
- Contains no steroids or antibiotics
- Contains no alcohol or iodine
- Aqualife is also intended for the moistening and lubricating of absorbent wound dressings.

BENEFITS

Minimizing Inflammation

HOCl's anti-inflammatory action reduces swelling and redness, providing a more comfortable healing experience

Supporting Cell Growth

HOCl aids in the growth of new skin cells, facilitating healthy tissue formation

A POWERFUL ANTIMICROBIAL

Aqualife hypochlorous technology is based on the body's innate cellular response to infection and is highly effective against bacteria, antibiotic resistant strains viruses, fungi, yeasts, and prions.

GROUNDBREAKING SAFETY

Non-cytotoxic, non-mutagenic, hypoallergenic, non-pyrogenic, endotoxin free and does not require rinsing. A unique balance between a powerful antimicrobial and the gentleness of saline.

SIMPLE INNOVATIVE APPLICATION

Designed with healthcare providers and patients in mind, our easy-to-use irrigation attachments, optimized for solution delivery, provide effective wound bed debridements
